

# THE GOLD STANDARD IN LANGUAGE ASSESSMENTS

**ACTFL**  
Language Proficiency & Performance  
EXCLUSIVELY THROUGH LTI

Language as a **College & Career Asset**

Language is no longer just an academic subject.  
**It's a workforce skill and a competitive advantage.**

Demand for **multilingual employees is growing**

Perceived importance of language education and its funding are diminishing

This disconnect presents both a challenge and an opportunity for educational leaders. Students are fully prepared for the future when language programs connect to real-world purpose.

## WHY LANGUAGE MATTERS

Multilingual employees meet the **growing demand**.

Multilingual candidates have **competitive advantage**.

Multilinguals **earn more** on average.

Language is an economic asset, and students need an industry-recognized credential to succeed.

## FROM PARTICIPATION TO PROOF

The **Seal of Biliteracy** is an important milestone, but its value lies in the assessments behind it.

Only ACTFL® Assessments:

Issue ACTFL scores & certificates, industry-recognized credentials.

Provide verifiable credentials that matter in college and career.

Are valued by employers across industries.

Not all tests are developed and rated equally. Only ACTFL assessments give students credentials that matter.

### LEAD THE WAY. SET THE STANDARD.

By connecting language learning to real-world purpose, you can demonstrate visionary leadership that balances academic excellence and career readiness.

- ✓ **Build a model** for a purposeful, sustainable program.
- ✓ **Prepare students** for careers.
- ✓ **Set an example** for others to follow.
- ✓ **Turn language education** into a strategic asset.

### Lead with purpose. Assess with credibility. Prepare students for what's next.

As a Sourcwell contract-awarded vendor, LTI has been vetted for quality, compliance, and value, which means districts can purchase our services confidently without the need to run a competitive bid process.
