

# Live Remote Proctor Service

Certify Language Skills Anytime, Anywhere

With remotely proctored testing solutions from Language Testing International (LTI), you can conveniently test language proficiency in over 120 languages from home or the office, whenever convenient for your test takers - including nights and weekends! Our accredited ACTFL language assessments are designed for organizations seeking to evaluate the language proficiency of their current or prospective employees in one or more languages anytime, anywhere; safely, securely, and economically. Widely recognized and accepted by major corporations, academic institutions, and government agencies, each test is designed to properly determine the specific proficiency level of an individual and ultimately to provide a valid and reliable language credential.

## What is Remote Proctoring?

Remote proctoring is a service that emulates the role of an on-site proctor. It is conducted online by a live proctor—confirming the identity of the test taker with a valid photo ID and safeguarding the integrity of the assessment. With remotely proctored testing solutions available in over 120 languages, test takers can conveniently test their language proficiency from their home or office.

## How does it work?

Using a webcam-enabled computer (and a headset with microphone for speaking assessments), test takers can take tests from a quiet location at a date and time convenient to their schedules.

## Getting started

- Set up an account with LTI.
- Request your assessments to include the remote proctoring service.
- Test takers receive instructions via email to schedule a date and time to take the test.
- Scores are sent to your test administration account (not to the test taker).

## Equipment needed

- Desktop computer or laptop
- Web camera and microphone
- Internet speed of at least 2 Mbps (hot spots are not recommended)
- Chrome (Version 80 or higher) or Firefox browser with pop-up blocker disabled.

## About LTI
